To Reduce the Prices, Benha University Launches an Initiative to Distribute Four Tons of Sugar on the University Employees

Under the auspices of Prof.Dr. EL-Sayed EL-Kady, the university president, Benha University launches an initiative to distribute four tons of sugar on the employees in cooperation with the campaign of Eng/ Yosry Ahmed Mahmoud to put

an end to the sugar crisis and face the prices rises. The university president asserts that the initiative is in the frame of the university's endeavor to meet the demands of the community, develop the environment and face the prices rises. He stresses that there are four tons of sugar being distributed by the university outlets in Benha, Moshtohor, the faculty of engineering at Shubra to serve the employees of the university and the society.

The university president asserts that the university is keen on keeping the bond between it and the society to help the citizens solve their problems. Eng/ Yosry Ahmed Mahmoud stresses that the state should stand by the citizens to help them solve their problems and he says the campaign is in the frame of solving the sugar crisis and preventing those who exploit people. He says that there are four tons of sugar being distributed by the university on its employees in addition to sending sugar to tokoh and Qaha. The employees and the citizens thank the university leaders for their initiative which faces the prices rises and the merchants' greed.
