Benha University is in the second place at the Arab Universities students Forum

Under the auspices of Prof.Dr. El-Sayed EL-kady, the university president and prof.Dr. Khalid Esawi, the general coordinator of students' activities and initiatives, the technological and scientific activity administration at Benha University has obtained the second place in the technological innovation realm.

This achievement takes place at the Arab universities students forum (18) in South Valley University. There are 34 Egyptian and Arab Universities which participates in this forum. Prof.Dr. Mosbeh El-Kihely, the general manager of the youth care unit at the university asserts that Benha University has progressed with 15 scientific researches which are presented by the following faculties: faculty of medicine, faculty of engineering, faculty of science, faculty of agriculture... etc in the technological innovation realm and scientific research.

Prof.Dr. Mosbeh El-Kihely adds that Benha University's research was one of the best researches. In the second stage, Ahmed Reda Muhammad, the student in the faculty of engineering participates in the forum with a research. His research is under the supervision of prof.Dr. Saleh Hemida, the professor of mechanics in the faculty of engineering in Benha.
